

# POWERWISE PD620M 3 PHASE UNIT

**POWERWISE PD620M - The Powerwise PD620M is similar to the PD620 with 6 circuits of 4.8KVA, master isolator switch and an input power status panel. It also features the addition of an added Digital Power management meter.**

## FEATURES

- Six circuits with a 20AMP MCB per circuit
- A master/RCD (residual current device) power switch
- Twelve single-phase Australian GPO outputs make it ideal for lighting and audio applications
- The unit comes complete with 5-Pin 32-amp connector wired ready for use
  - Digital Multi-Function Meter LCD display screen
  - Commercial standard
  - Rack Mountable
