

# E 901 Condenser Microphone

<a href="#">Pick-up pattern</a>	half-cardioid
<a href="#">Frequency response</a>	20...20 000 Hz
<a href="#">Sensitivity in free field, no load (1kHz)</a>	0,5 mV/Pa
<a href="#">Max. Sound pressure level (aktiv)</a>	154 dB / SPL
<a href="#">Phantom powering</a>	48 V / 1,1 mA
<a href="#">Nominal impedance</a>	< 100 Ohm
<a href="#">Min. terminating impedance</a>	1000 Ohm
Dimensions	126,5 x 105 x 26,5 mm
Weight	ca. 550 g

**The half-cardioid E 901 is the perfect condenser microphone for kick drum or as a solid boundary mic.**

**It is highly robust and step-resistant.**

**It benefits from an integrated preamp**

## **FEATURES**

- Frequency response optimized for kick drum
  - Very fast attack
- Integrated preamp and gold-plated standard XLR plug, no need for special adapter cable
  - No microphone stand needed for kick drum applications
    - Handles very high sound pressure levels
  - Slip-free, dampening rubber pad underneath

## **Mic Pack Includes**

- Pouch
- User Manual
